

The Plan Explained!

Date: 29 Dec. 2017

1st Rev. 21 Jun 2018

Aim:

To share “The Knowledge” of “The Future of Mankind”

We may ask: But all people have their fanciful ideas so why should any person take any note of “FutureLife.Org”?

“Fanciful ideas” based upon “unquestioned hearsay” sounds like “Religion”, which is defined as “a pursuit or interest followed with great devotion”, but what I would like to present to you is nothing like that.

Unlike “Religion”, I would like to offer a new vista, being my understanding of what will befall The Human Species.

My Authority:

In my youth, I reasoned there must be something in “Religion” because so many people patronised it within the many presentations, perhaps one was correct? Yet nothing seemed to be credible, furthermore, much was “unreasoned hearsay” and thus inherently worthless. However, something stood out in The Bible to make it wholly different from other religious documents.

- 1. The prime participants were often martyrs, so they must have something personally valuable to represent!*
- 2. The Knowledge meant something to these people because these they dedicated their lives to it by action.*
- 3. These prime participants often presented logical, well-reasoned arguments to support their conviction.*
- 4. Genuine roundness of human characters came through writings both the positive and the errors recorded.*
- 5. There were so many prophecies given and fulfilled - which showed an “Overarching Intelligence”.*
- 6. This “Intelligence” had “Authority/Capability” to hold together this “Most Righteous Plan” over millennia! Unlike all other religions, “Christianity” showed “**promise**” for me to spend more of my time investigating it!*

Since then, I have now consumed more than 50,000 man-hours discovering The Plan by gathering The Evidence over 30 years, collecting coherent knowledge thoroughly assayed and acted upon with fidelity. I find I can best digest information by writing down my thoughts during my study, now having generated some 4,000,000 words of original work as documented on “FutureLife.Org” of which I **freely** give to any interested person.

These writings fully explain “The Mind of The Almighty God” regarding us “humans”, to underwrite this brief exposition explaining our future, all of which I have thoroughly analysed, and have tested its veracity with righteous logic, befitting such an important subject – concerning our “Life”.

Presentation:

Many religious websites ask for contact details (for obvious reasons), but “The Knowledge” I give can be anomalously downloaded from “FutureLife.Org” without any fear of a possible unsolicited follow-up.

It is freely/simplely given with no strings attached, unlike almost all other things supposedly ‘given’ today.

It is fully transparent, having no “mysteries” and I welcome the most vigorous and reasoned criticism.

Unlike that which has occurred throughout the ages with “Religion” whose leaders ardently suppress criticism!

The Most Important Rule:

For us to honestly absorb new information that conflicts with our present conceptions of “Life”, then we must be prepared to give “New Knowledge” a “Fair Chance” to explain itself!

It shall be like a new language, difficult to start with, but can become fluent with time and practice.

I would say to the:

Atheist:

Park to one side all the (‘supposedly’ logical/supportive) reasons that uphold your belief of being no supernatural powers having any intrinsic interest with humans,

Religious Person:

Park to one side all the (‘supposedly’ irrational/unsubstantiated) hearsay that upholds your belief and devotion towards a pursuit or worship of a supernatural Entity(s) or Concept.

Agnostic:

Let all people of above come with an open and reasoning mind, prepared to search and sift information, because that is surely what all people should be doing, if we are to iterate unto “The Absolute Truth”!

Everyone:

Please just give what I propose a little time to explain itself – not for my benefit, but for your possible gain!

“The Knowledge” that gives meaningful answers to those nagging questions of which all humans have today.

Being “The Same/Sane Knowledge” that drove those martyrs so long ago – because it meant so much to them!

I can only show where “The clean water of life” exists, I cannot and shall not, force you to drink it!

My responsibility ends at freely showing you where the clean water lays, your responsibility starts by drinking it!

Let us think differently through a Thought Experiment!

Let us assume that we have UNLIMITED AUTHORITY and a similarly CAPABILITY to do what we please.

How would you really behave?

I would assume most people would desire a society that functions to the common good for all existing people. Yet the question is:

How do we get from here (in our present hostile society) to there (this new ideal society)?

To achieve this idea state:

How would you use your absolute authority and unlimited capability to accomplish this ideal goal?

We cannot just snap our fingers to short circuit the route to achieve this ideal goal because all participants must “Buy into” this new society, else, things will return to their present state and we are all back to “square one” again!

Therefore, we must win everyone over “onto our side” thereby agreeing with “The Means” to achieve this laudable goal would then require us to act with “complete righteousness in all our actions”! We are not automatons but freely thinking people who must personally mould our mind to desire the aims of this new society – by experience.

Else, without everyone on our side, then there will always be discontent and we will not achieve this ideal new society.

Achieving this ideal goal is made so much worse:-

When the starting position consists of “People who are thinking/living differently to each other”!

So we should ask:

How is it possible for people of all differing opinions and starting positions to be persuaded to adopt:

“Your approach” for us all to achieve this ideal situation?

This ideal future is starting to become more difficult to achieve – is it not?

Especially difficult if:

You wish to give your subjects the freedom to choose and determine their future from their own actions.

As we have seen - throughout The Tenure of Mankind's Past under Authoritative Control - all methods have failed at least one section of society, if not more throughout all of society!

Therefore, all people must freely support “The Aims and Ideals” of “This Authoritative Control”.

Just “killing opposition” will ultimately leave “only one person” and thus the extinction of the human species!

Universal agreement under a Proven Righteous Authority is the only way for Mankind to succeed!

All people must willingly “Buy into” “The Aims” of “The Proven Righteous Authority”!

Let us now continue this reasoning.

Take ourselves completely out of this world and start thinking with a mind of an Entity in a position that truly has “All Authority” and “Infinite” “Capability”, then how would that Entity behave?

If we were in that position of this Entity then we would understand:

People must “think for themselves about the consequences of their actions”, this is “learning about causality”

All people must have an opportunity to learn how to become a positive member of this future perfect society.

For what reason?

It must be seen by all people:

This Entity has first given “all guidance and opportunity” for every person to reform.

To be fair:

The Entity must provide all people with visibility of “Its Guidance” which informs us how to behave.

We should have the opportunity to apply this guidance to everyday living and therefore gain experience of the benefits that The Entity's Guidance gives to us.

For “all righteousness to occur” then the above must occur for:

All those people who have already died and have not received this guidance nor experienced it.

It is only fair they should be given an opportunity to experience the results of this guidance in a “second life”.

This fair/equitable/righteous approach is indicative that:

“The Righteous Entity” has no desire to annihilate any person, especially when having participated within the initial creation of the respective species to have “Life”.

To exhibit “Righteousness” The Entity (1) warns, (2) provides a solution, (3) gives time, (4) fulfils/acts.

To achieve this security within our mind, then This Entity operates in a consistent and dependable manner.

Because without this:

Then there will always be unsettling questions within members of society about permanently removed ‘friends’. These unresolved questions will simply ferment rebellion within society and pull apart what would have been a perfected society.

Just “telling someone” will not dispel rebellion, but all members must see/know all righteousness has occurred through “real tangible proof” with their own eyes, else all manner of many of excuses will be forthcoming!

This scenario is now seeming very difficult and perhaps impossibly to achieve!

Yet somehow, people purporting to represent “Religion” must have righteous answers to the given above requirements.

Let us now take this generic “thought experiment” to something more specific.

I now propose what follows to be **“The Righteous Solution”** in answer to my earlier consideration.

You will recall in my postulation given above, this “All Authority” Entity has “Infinite Capability” that can be described as: “I make become who/what I choose to become”.

By example, just consider what humans have technically achieved during the last 1000 years!

This is not too impossible to accept when:

This Entity has established “Its Authority/Capability” through much **“Proven Prophecy”** over many millennia.

However:

This recognised “Credibility of Action” “Righteously Demonstrated” becomes recognised by **“certain people”**.

By Response:

These **“certain people”** in The Ages take upon themselves “The Ideals/Aims/Action” as sourced by This Entity.

These certain people therefore:

Become **“The Early Adopters”** of what The Entity “Desires to Occur” within “The Future Perfect Society”.

Moreover, it seems reasonable to accept this Extra-terrestrial Entity chooses to work in The Background with these “Early Adopters” because they are showing distinct promise in doing their utmost in fulfilling The Aims of this Omnificent Entity to yield this future perfect Environment within the local environment of the Early Adopter.

They must prove themselves first over many years with “Accountability, Ownership and Responsibility” of their lives and then God will start to work with them. It cannot be the other way around else other disgruntled people will always state in my proposed 2 part life these “Early adopters” were only “Good People” because **You** unfairly helped them first to be like that (Job.1v8-12, 2v1). Hence “Your Action” is not righteous to all people, because some people would have had an unfair head start in life to then be the successful candidates of great responsibility in the 2nd part of their life over those people (99.9% of all people) not achieving this most coveted position in society as The First/Most/Best. Where the best position would be a future World Leader enjoying the full support of The Omnificent Entity having placed “The Proven Early Adopter” there to actively teach “The Resurrected World” “Righteousness” .

But:

These **“Early Adopters”** have no sway within present-day society because they have not allowed themselves to be drawn into worldly self-indulgent affairs.

Why?

The World is “short-sighted” only interested in “The Here and Now” for what “The Immediacy” can yield.

The short-term gain pleases an animalistic/carnal mind that rejects the long-term gain of “The New World Order”.

However, this fulfils “The Goals” of “This All-Capable Entity” because:

People are learning “Causality” that results from an “Animalistic/Carnal Mind” fulfilling “The Immediacy”.

Nevertheless, by consequence:

The World is generally filled with pain and suffering brought about by people taking a position of control over other people to “self-indulge to the hurt of their neighbour”.

It naturally follows that if this Entity is “Infinitely Capable” (as postulated earlier) and thus able to make a second part of our life possible, then these dead people will have an opportunity to experience a Good Society under The Guidance of the proven **“Early Adopters”** underwritten by The Entity having “All Authority”.

Yet presently, the existing situation during our present life will never yield a perfect society because each generation with new individuals, just repeats itself! The new members of the next generation repeat the same actions/mistakes of the members of the previous generation.

The same-minded people take those places within society every generation, but just different names and faces!

Ultimately:

More technology enables more people to greater “self-indulge to their neighbour's hurt” as we have witnessed.

This misapplied capability taken to its conclusion shall pull-apart society and finally destroy Mankind.

That is our future without Extra-terrestrial intervention!

Nonetheless, there is “Good News” (= “The Gospel” as taught by JC [Jesus Christ] and The Apostles)!

Good News, because, let me repeat:

The “All Authority” Entity has **“Infinite Capability”** (= “I make become who/what I choose to become”).

This is not too impossible to accept when:

This Entity has established “Its Authority/Capability” through much **“Proven Prophecy”** over many millennia.

A very few examples out of many hundreds to substantiate “Proven Prophecy” statement:

The Most Important was The Bible's first prophecy given at Gen.3v15.

Stage (1) was fulfilled at JC's 1st Advent (as given in The Gospels), and stage (2) at Rev.20v10 shall occur.

Almost as important was the prophecy given at Gen.49v8-12.

Stage (1) was fulfilled at JC's 1st Advent (as given in The Gospels), and stage (2) at Rev.19v16-19 shall occur.

Within Genesis, I show in my dissertation entitled “Yahweh's Plan as given in Genesis” of some 70 pages show more than perhaps 100 allegoric prophecies being progressively fulfilled over the last some 6000 years.

Progressively through The Tanakh (= The Old Testament, restructured) there are several hundred prophecies directly related to JC and further almost an equal number of prophecies describing the future "Millennium". Isaiah stated, some 180 years before it occurred, precisely how The Israelites would be rescued from out of the hands of The Babylonians. Furthermore, he also gave The Name of the leader, who would do it, Isa.44v28-45v1, which was respectively pointed out to King Cyrus by Ezra at Ez.1v1-5 to become the spur for King Cyrus to release The Jews and rebuild The Temple (in its much reduced form).

There are very many prophecies given within The Book of Daniel out of which I will only cite one that is located at Dan.8v21-22, only for the reason its fulfilment some 250 years later is indisputable. It was fulfilled by Alexander the Great, and when he died, he was replaced by his four generals splitting Alexander's conquered land between themselves. That is enough to substantiate my claim of fulfilled prophecies, and what I have given is more in number than all the world religions combined!

Surely, the contrast between what is sourced by Yahweh and what is sourced by Man is obvious!

Why waste our time with what is sourced by Man?

This is what "**The Early Adopters**" were so competently able to distinguish, and made it their business to do so!

Therefore "The Early Adopters":

Have demonstrably taken upon themselves "The Ideals/Aims/Action" as sourced by "This All Capable Entity".

Thus:

This Omnificent Entity has now done two things during our present life:

1. Enabled people to learn what "not to do" by personal hurt within a harmful, self-indulgent society.
2. Produced "proven perfect" "**Early Adopters**" to The Omnificent Entity's Requirements for a perfect society.

However:

This is of no worth as it stands, because all the generations of people have died without yielding a perfect society! Moreover, the human species annihilated itself by taking "self-indulgency to an excess" expressed every generation in ramping severity!

How do we recover from this dire situation?

The "Thought Experiment" relies upon "The Omnificent Entity" being Extra-terrestrial.

(Because "The World" of recorded history is demonstrably: "Not able", then nothing humans do will change the situation, except technology 'ramps-up the gain' to produce greater instability in society).

Especially fortunate for us, "The Omnificent Entity" desires a perfect society for us, and is working to achieve this righteous aim (which was/is a painful experience for these Extra-terrestrial Entities).

Where:

The "All Authority" Entity has "Infinite Capability" "**to make become who/what It chooses to become**"!

Where, "The Name" "Yahweh" (in Hebrew) means, "I make become who/what choose to become".

All things must be shown to have occurred through progressive stages for humans to learn from their mistakes.

What can be done?

This Omnificent Entity at this stage must work in parallel to The World only through "**The Early Adopters**".

(Because of John.17v14-16, 18v36, The World preferring the all-pervasive influence of 2Cor.4v4, 1John.5v19.)

By reason:

It is only "**The Early Adopters**" who demonstrate themselves sufficiently worthy for Yahweh to use!

Where:

To exhibit "Righteousness" The Entity (1) warns, (2) provides a solution, (3) gives time, (4) fulfils/acts.

To achieve "a perfect society" requires "**Leaders**" to teach/show by demonstration "How to be perfect"!

Humans were warned about the consequences of "Sin" (= "to miss The Required Standard"); it leads to death.

But:

This warning (to yield a perfect society) was ignored; all humans have sinned (yielding what we have today)

By consequence:

Death (= annihilation at this stage) then ensues (as witnessed) which will ultimately annihilate Mankind!

Important question:

How can we, as human individuals, then righteously become part of a perfect society?

Never would it be possible - without Extra-terrestrial intervention!

The Requirement:

It needs a mind that intrinsically does not want to "sin" to personally lead this perfect Society (Rev.19v6).

The Omnificent Entity has proven "**Early Adopters**" to The Requirements, but being human, they need a leader

They need a leader because they are intrinsically demur/humble taking the last/least within the present world.

They want to be led by a "**proven perfect mind**" and become in union with this mind.

How can it be righteously done?

An "Extra-terrestrial entity" that does not think like The World, proves The Omnificent Entity's Methodology.

The Omnificent Entity's Methodology is: "To edify one's neighbour to the giver's own hurt"!

When put into practice:

The "Extra-terrestrial entity" proves The Omnificent Entity's Methodology unto murder by World Authorities.

Thus (and this is a most important concept to grasp):

It is through "Extra-terrestrial Methodology" as practiced that trumps "Worldly Methodology".

Extra-terrestrial Methodology leads to "Life", that is able to balance Worldly Methodology that leads to "Death".

Hence, by spiritually “dying away from worldly methodology” (= rejecting it) enables us to spiritually “live in Extra-terrestrial Methodology” (= hearkening to it), with a worthwhile benefit that enables us to gain eternal life if we operate with fidelity to this new found “Knowledge”.

The experienced resultant of (1) dying away now in our present life enables the resultant of (2) to live in the second life.

Importantly:

Both “Resultants” must be proven first for all things to be seen as “Righteous” in “The Eye of The Beholder”.

Therefore based upon:

The Extra-terrestrial entity having balanced “Its life” for “Another life” to Yahweh’s Decree (not to sin, else die) and having proved Itself worthy can atone/cover/buy the existence of “life” for a resurrection into a perfect Society.

By consequence:

The Omnificent Entity with All Authority and Infinite Capability can for just this ONE time “Righteously”:

Give a resurrection for a “one-to-one” equivalence, a resurrection for each one of us, so that we may learn how to be perfect.

Now we understand:

The Omnificent Entity has made possible a “Righteous Plan” of the following results (as given before).

1. Enabled people to have learnt what “not to do” by personal hurt within a harmful, self-indulgent society.
2. Produced “proven perfect” “**Early Adopters**” to The Omnificent Entity's Requirements for a perfect society.
Furthermore:
3. Provided a righteous route to give individuals of (1) and (2) a “life extension” in a possible perfect society.

Where:

The Proven Perfect “**Early Adopters**” rule over and teach by example all resurrected people to

“Perfect their minds”, therefore becoming commensurate with the “perfect DNA fleshly bodies” “given in trust” within which to reform “The Mind” to “The Requirements” to yield a perfected society!

In addition, ideally:

These people will reform their minds to become like their saviour (= “the extra-terrestrial entity”).

Moreover, by so doing these personally reformed people shall successfully pass the final testing stage given later, to ensure that they have truly reformed (under assay).

By contrast:

Those people who steadfastly refuse to imitate their saviour shall be annihilated from society at the final assay.

Conclusion:

All the criteria to yield a perfect society has been met by the “Thought Experiment” and my answer:

The Omnificent Authority has (1) warned, (2) provided a solution, (3) given time, (4) and then acted.

“**The Early Adopters**” proved themselves perfect to “The Requirements” and thus positioned to teach/rule.

All people have learnt both **evil** (first) and **good** (second) and thus are able to make an educated decision.

A perfect society has been created by a demonstrative “Righteous” process as recognised by all humans/entities.

All successful people can see: The unsuccessful people were given every opportunity to reform, and refused!

All successful people have “Bought into The New Methodology” because it truly edifies all members of society.

All successful people become “**The Late Adopters**” of The New Methodology (of “The All Capable Entity”).

So the question should be asked:

From where did I gain this “Righteous Plan”?

Quite simply:

It is clearly told to us in The Bible, importantly of its two parts (= The Old and New Testament)!

Where:

The Omnificent Entity of The Universe is “Yahweh” (= “I make become who/what I choose to become”).

The Extra-terrestrial entity is “Christ Jesus” (which means “Anointed Yahweh is Salvation” and thus becomes “Yahweh anoints to save”).

It is Jesus Christ (= JC) of the 2nd part of The Bible who “**Righteously Answered**” the 1st part of The Bible.

Most importantly:

Yahweh via JC gave “**The Most Important Prophecy**” regarding The Gospel Age of the last some 2000 years.

It is given at Rev.14v1-4. Yahweh requires specifically 144000 people to become “**The Early Adopters**”.

Without “The 144000 **Early Adopters**” who will become “The Future World Leaders” then Yahweh cannot move to the next stage of “This Plan” of “The 1st Resurrection” for these future “World Leaders” (Rev.20v6).

“The 1st Resurrection” is required early for “The **Early Adopters**” to be taught how to rule.

It is at “The 2nd Resurrection” that begins the 2nd part of our life, for all other people pre/post JC's 1st Advent.

The Requirement (to become one of these “144000 **Early Adopters**”) is:

“To precisely imitate JC's ministry/lifestyle” (freely/simplely) as instructed by Paul (1Cor.4v16, 11v1, etc.).

This requires:

Thoroughly learning The Bible, **assay it** and **operate with fidelity** to what it commands to gain “**Real** Faith”.

It then means:

Operating with zero hypocrisy and in complete honesty to any person, institution, organisation or authority.

We go out into society and freely “edify our neighbour to our own hurt” with what we are best able to do.

We use these talents (= weights of responsibility), enabling other people to take upon themselves their talents (which mean to ideally be making new “Early Adopters”).

It is only by this procedure that we are able to hand our “Real Gain” over to JC ‘as his wife’.

(Matt.25v14-21, Luke.19v16-19, Eph.5v30-32, Rev.19v4-9, 21v2, 9, etc.).

Therefore, we reason concerning “**The Early Adopters**” (of Yahweh’s Methodology):

These people operate in “The Light” (= they welcome public scrutiny of their private lives, Luke.12v2-3).

These people can be trusted in small things and will be given greater responsibility as future New World Leaders.

This is what many of JC’s parables teach us (Matt.20v1-12, 25v14-21, Luke.19v14-19, 20v16, etc.).

By contrast, it rules out all today’s world leaders especially those of “Religion” hence the advice at Rev.18v4.

Yahweh is working in parallel to them, and thus outside of them by only working in “**The Early Adopters**”.

Hence, these leaders operate in “The Darkness” (= they hide their private life from public scrutiny).

They live on the backs of the people below them, using “Religion” as a tool to live on other people’s efforts!

This is very much the high level, but the stupendous low level that wholly underwrites this plan is NEVER taught today!

Our delinquent leaders of Christendom NEVER teach what “JC and The 1st Century Apostles taught” during their day.

By consequence:

Leaders of Christendom today bring absolute dishonour/disrepute to Yahweh within sane/reasoning minds.

Yahweh shall reject them from a position of leadership in the 2nd part of our life - as The Bible tells us in many places.

Leaders of “**1st Century** Christianity” brought real honour/dignity to Yahweh within sane/reasoning minds.

Yahweh shall elevate them to a position of leadership in the 2nd part of our life - as The Bible tells us in many places.

Please read “**FutureLife.Org**” where everything is explained down to the very finest detail to underwrite all the above.

I also invite leaders of “Religion” (especially of Christendom) to explain themselves by giving a ‘better’ “**Plan**”!

So I may ask:

To the “**Atheist**” – Is this information beyond the rational mind?

Upon what educated basis do you make that decision?

To draw a conclusion upon these words, I then ask you to base it upon “**The Evidence**” given in “The Prime Source” of The Bible – before considering anything that “Leaders of Religion” tell us!

And:

To the “**Religious Person**” – Do you fear change?

If there are so many wholly different schisms of “Religion”, what then, makes your specific version correct?

It is most likely you do what you like, because you have been told to do so by your demonstrably errant leader!

Finally:

To the “**Agnostic**” – why ‘sit on the fence’ and ignore “The Invitation” to become an “**Early Adopter**”?

It is important to “Reason through The Evidence” and not to “vainly hope” ‘something comes your way’!

Invariably, nothing comes on “Hope”, but people personally work to make an “Expectation” a physical reality!

I invite you to read the next exposition entitled: “What does God really want from us?”

3438 Words

We have created the environment, individuals to behave autonomously to be self-aware

Programming a game where the AI have self-awareness to make independent decision

The Entity has a desired outcome,

Problem:

The Entity having started this game would like to step back and let the AI entities choose their future (learning from their mistakes) but wanting The Entity’s Desired outcome.
